Respiration in animal

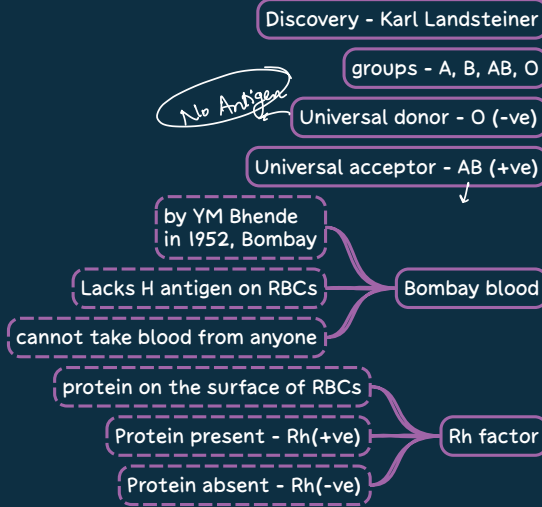

LUNGS DIAGRAM

Blood Group

Aorta

- form L. Ventricle to Body
- Largest artery & thickest

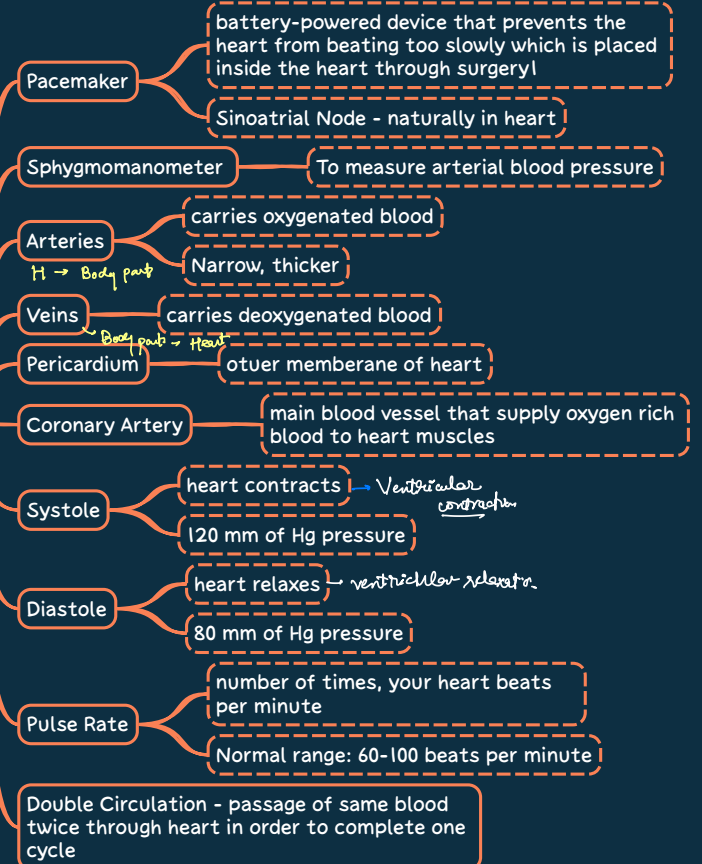

Pulmonary Vein

- carries Oxygenated blood (from Lungs to L. Atrium)
- Mitral valve - form L. Atrium to L. Ventricle

Pulmonary Artery

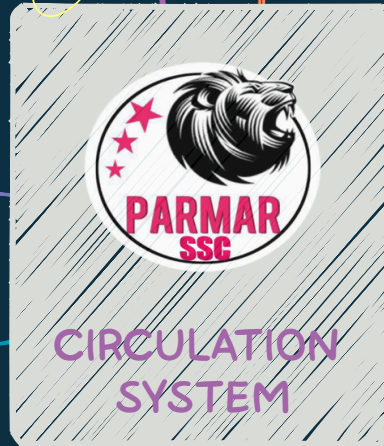

- Tricuspid valve - form R. Atrium to R. Ventricle
- Carries deoxygenated blood (from R. Ventricle to Lungs)

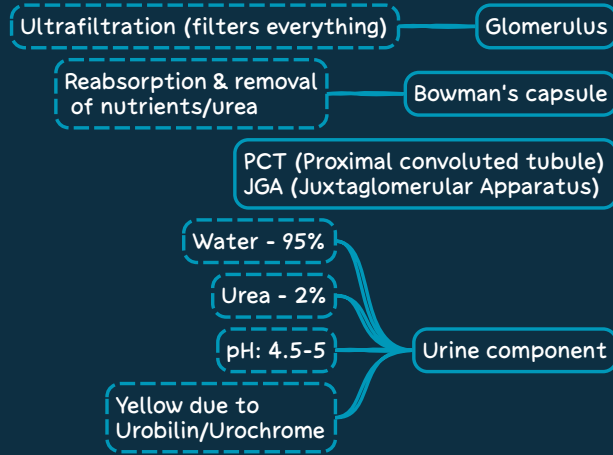

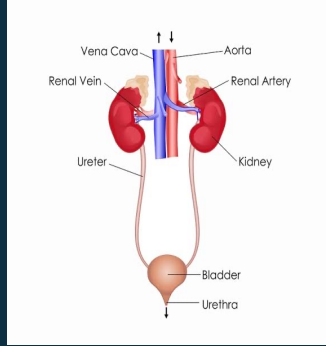

Heart

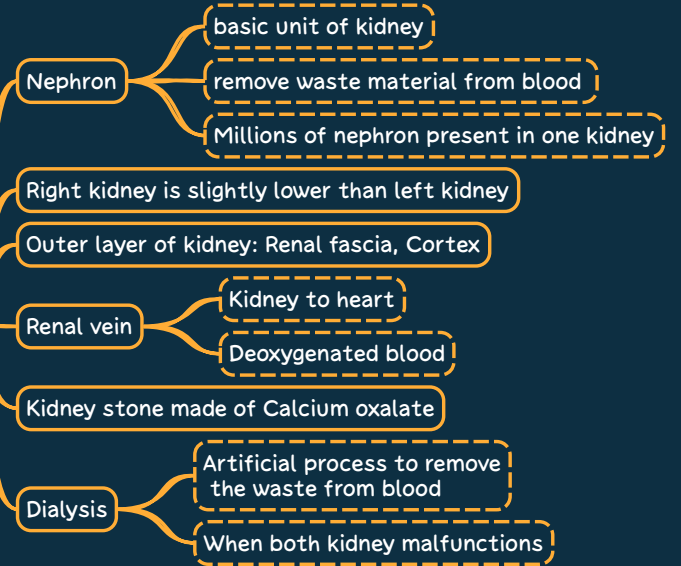

Superior & Inferior Vena Cava

- From Body to R. Atrium
- carry deoxygenated blood
- largest vein

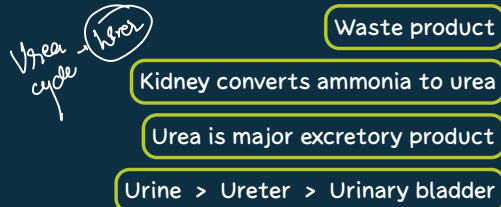

kidney

Ammonia

Urine

- 95% water
- 2.5% urea
- 2.5% other stuff

Waste removal
